

Home Depot Order Guide

Below is an image from the first page of the Home Depot Order Guide. Print out the pages, fill in your quantities, and deliver to your local Home Depot to purchase the materials. They'll love you for it.

From time to time Home Depot changes UPC's and items so not all of these will be correct.

Name: _____ Page: _____ of _____

21	Insulated flex duct 6" diameter	641-359	21

When I order materials I set up for three deliveries. You can do the same. The first delivery consists of all the materials up to the drywall.

The second delivery consists of all the drywall and associated materials.

The third delivery consists of all the trim materials.

Note how the first and last number of every row restarts with number 1 for each delivery. For the final delivery, your trim order, you will not be using all the sheets you've printed. Discard these and recycle. Number the pages that are used so that when you take them to the store the clerk can enter the data into the computer correctly.
